ABSTRACT
DEVICE WITH ETHERNET AND ATMFORUM INTERFACING CAPABILITY

In a device (ADSL_MODEM2) having Ethernet interfacing capability and
5   ATMForum interfacing capability, a single connector (ETH/ATMF_CON) with
four pairs of pins (P1, P2, P3, P4) is provided. This connector
(ETH/ATMF_CON) is able to interface with an Ethernet plug and to interface
with an ATMForum plug.
